IHE Test & Management Tools

IHE Test and Management Tools created by the Electronic Radiology Laboratory, Mallinckrodt Institute of Radiology, are intended to assist software developers test their implementations of actors in IHE Integration Profiles. All software is open source using an Apache 2 license.

There are a number of different projects supporting different IHE domains and Integration Profiles. It is a works in progress to create an integrated package of all of the tools.

Software List (by IHE Domain)

IT Infrastructure

- RESTful ATNA Test System
