# Let's edit this page (step 3 of 9)

**Pages are the primary means of storing and sharing information in Confluence.**
Pages are contained within spaces. This page is in the 'Demonstration Space'.

Let's play with some content. Don't worry, you won't break anything:

1. Click **Edit** at the top of this page. Now you are in the editor.
2. Type some words in the panel below this one.
3. Have some fun:
   - Change the color of some text: Select the text, then choose a color from the color option in the editor tool bar.
   - Add a link: Select some text, then choose **Insert** > **Link** (or press Ctrl+K or Cmd+K).
     Click **Web Link** and enter an **Address**, such as `http://www.google.com`.
     Click **Insert** to insert the link and come back to this page.
   - Find a pretty picture on your computer's local or network drive, and drag it into the same panel as your words.
   - Try the other options in the editor toolbar.

When *y*ou are ready, click **Save** and go to the next step or back to the space home.
